## Helix Ultra Professional AR-L 5W-30

Version 1.6

Revision Date 14.10.2022

Print Date 15.10.2022

### Storage:

No precautionary phrases.

#### Disposal:

No precautionary phrases.

#### Other hazards which do not result in classification

Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis.Used oil may contain harmful impurities.Not classified as flammable but will burn.

#### SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

| Substance / Mixture | : Mixture   |
|---------------------|---|
| Chemical nature     | <ul> <li>Synthetic base oil and additives.<br/>Highly refined mineral oil.<br/>The highly refined mineral oil contains &lt;3% (w/w) DMSO-<br/>extract, according to IP346.<br/>Classification based on DMSO extract content &lt; 3%<br/>(Regulation (EC) 1272/2008, Annex VI, Part 3, Note L).</li> </ul> |
|                     | <ul> <li>* contains one or more of the following CAS-numbers: 64742-<br/>53-6, 64742-54-7, 64742-55-8, 64742-56-9, 64742-65-0,<br/>68037-01-4, 72623-86-0, 72623-87-1, 8042-47-5, 848301-69-<br/>9, 68649-12-7, 151006-60-9, 163149-28-8, 64741-88-4,<br/>64741-89-5.</li> </ul>                          |

#### Hazardous components

| Chemical name  | CAS-No.      | Classification  | Concentration (%<br>w/w) |
|--|--------------|---|--------------------------|
| Interchangeable low<br>viscosity base oil<br>(<20,5 cSt @40°C) * | Not Assigned | Asp. Tox.1; H304  | 0 - 90                   |
| Alkaryl amine  | 36878-20-3   | Aquatic Chronic4;<br>H413   | 1 - 3                    |
| Alkylthiocarbamide<br>molybdenum complex                         | Not Assigned | Skin Irrit.2; H315<br>Skin Sens.1B; H317<br>Aquatic Chronic3;<br>H412 | 0.1 - 0.9                |

For explanation of abbreviations see section 16.

#### **SECTION 4. FIRST-AID MEASURES**

# Helix Ultra Professional AR-L 5W-30

| Version 1.6   | Revision Date 14.10.2022 Print Date 15.10.2022   |
|---|--|
| If inhaled  | : No treatment necessary under normal conditions of use.<br>If symptoms persist, obtain medical advice.  |
| In case of skin contact   | <ul> <li>Remove contaminated clothing. Flush exposed area with<br/>water and follow by washing with soap if available.</li> <li>If persistent irritation occurs, obtain medical attention.</li> </ul>            |
| In case of eye contact  | <ul> <li>Flush eye with copious quantities of water.</li> <li>Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>If persistent irritation occurs, obtain medical attention.</li> </ul> |
| If swallowed  | : In general no treatment is necessary unless large quantities are swallowed, however, get medical advice.   |
| Most important symptoms<br>and effects, both acute and<br>delayed | : Oil acne/folliculitis signs and symptoms may include formation<br>of black pustules and spots on the skin of exposed areas.<br>Ingestion may result in nausea, vomiting and/or diarrhoea.                      |
| Protection of first-aiders  | : When administering first aid, ensure that you are wearing the appropriate personal protective equipment according to the incident, injury and surroundings.  |
| Notes to physician  | : Treat symptomatically.   |

### SECTION 5. FIRE-FIGHTING MEASURES

| Suitable extinguishing media                  | : | Foam, water spray or fog. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.  |
|---|---|---|
| Unsuitable extinguishing media                | : | Do not use water in a jet.  |
| Specific hazards during firefighting          | : | Hazardous combustion products may include:<br>A complex mixture of airborne solid and liquid particulates and<br>gases (smoke).<br>Carbon monoxide may be evolved if incomplete combustion<br>occurs.<br>Unidentified organic and inorganic compounds.  |
| Specific extinguishing methods                | : | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.   |
| Special protective equipment for firefighters | : | Proper protective equipment including chemical resistant<br>gloves are to be worn; chemical resistant suit is indicated if<br>large contact with spilled product is expected. Self-Contained<br>Breathing Apparatus must be worn when approaching a fire in<br>a confined space. Select fire fighter's clothing approved to<br>relevant Standards (e.g. Europe: EN469). |

|---|-----|---|--|
| Hazchem Code  | :   | NONE  |  |
| SECTION 6. ACCIDENTAL RELEA   | ASE | MEASURES  |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures | :   | Avoid contact with skin and eyes.   |  |
| Environmental precautions   |     | Use appropriate containment to avoid e<br>contamination. Prevent from spreading<br>ditches or rivers by using sand, earth, o<br>barriers.   | or entering drains,  |
|   |     | Local authorities should be advised if s cannot be contained.   | ignificant spillages   |
| Methods and materials for containment and cleaning up                     |     | Slippery when spilt. Avoid accidents, of<br>Prevent from spreading by making a ba<br>or other containment material.<br>Reclaim liquid directly or in an absorbe<br>Soak up residue with an absorbent suc<br>suitable material and dispose of proper | arrier with sand, earth<br>ent.<br>ch as clay, sand or other |
| Additional advice   |     | For guidance on selection of personal see Section 8 of this Safety Data Shee For guidance on disposal of spilled ma this Safety Data Sheet.   | t.   |

### SECTION 7. HANDLING AND STORAGE

| General Precautions     | Use local exhaust ventilation if there is risk of inhalation of<br>vapours, mists or aerosols.<br>Use the information in this data sheet as input to a risk<br>assessment of local circumstances to help determine<br>appropriate controls for safe handling, storage and disposition<br>this material. |    |
|-------------------------|---|----|
| Advice on safe handling | Avoid prolonged or repeated contact with skin.<br>Avoid inhaling vapour and/or mists.<br>When handling product in drums, safety footwear should<br>worn and proper handling equipment should be used.<br>Properly dispose of any contaminated rags or cleaning<br>materials in order to prevent fires.  | be |
| Avoidance of contact    | Strong oxidising agents.  |    |
| Product Transfer        | Proper grounding and bonding procedures should be use<br>during all bulk transfer operations to avoid static accumul  |    |
| Storage                 |   |    |

## Helix Ultra Professional AR-L 5W-30

| Oil mist, mineral | Not Assigned | TWA (Mist)                                  | 5 mg/m3   | Australia.<br>Workplace<br>Exposure<br>Standards for<br>Airborne<br>Contaminant<br>s. |
| Oil mist, mineral | Not Assigned | TWA (Mist)                                  | 5 mg/m3   | OSHA Z-1  |
| Oil mist, mineral | Not Assigned | TWA<br>(Inhalable<br>particulate<br>matter) | 5 mg/m3   | ACGIH   |

#### **Biological occupational exposure limits**

No biological limit allocated.

#### Monitoring Methods

Monitoring of the concentration of substances in the breathing zone of workers or in the general workplace may be required to confirm compliance with an OEL and adequacy of exposure controls. For some substances biological monitoring may also be appropriate.

Validated exposure measurement methods should be applied by a competent person and samples analysed by an accredited laboratory.

Examples of sources of recommended exposure measurement methods are given below or contact the supplier. Further national methods may be available.

National Institute of Occupational Safety and Health (NIOSH), USA: Manual of Analytical Methods http://www.cdc.gov/niosh/

Occupational Safety and Health Administration (OSHA), USA: Sampling and Analytical Methods http://www.osha.gov/

#### Protective measures

Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

| Respiratory protection | <ul> <li>No respiratory protection is ordinarily required under normal conditions of use.</li> <li>In accordance with good industrial hygiene practices, precautions should be taken to avoid breathing of material.</li> <li>If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation.</li> <li>Check with respiratory protective equipment suppliers.</li> <li>Where air-filtering respirators are suitable, select an appropriate combination of mask and filter.</li> </ul> |

| Conductivity<br>Particle size | : This material is not expected to be a s<br>: Data not available | static accumulator.   |

#### SECTION 10. STABILITY AND REACTIVITY

| Reactivity                         | : The product does not pose any further reactivity hazards in addition to those listed in the following sub-paragraph. |
|------------------------------------|--|
| Chemical stability                 | : Stable.  |
| Possibility of hazardous reactions | : Reacts with strong oxidising agents.   |
| Conditions to avoid                | : Extremes of temperature and direct sunlight.   |
| Incompatible materials             | : Strong oxidising agents.   |
| Hazardous decomposition products   | : No decomposition if stored and applied as directed.  |

#### SECTION 11. TOXICOLOGICAL INFORMATION

| Basis for assessment | Information given is based on data on the components a<br>the toxicology of similar products.Unless indicated otherw<br>the data presented is representative of the product as a<br>whole, rather than for individual component(s). |      |
|----------------------|---|------|
| Exposure routes      | Skin and eye contact are the primary routes of exposure although exposure may occur following accidental ingest   | ion. |

## Helix Ultra Professional AR-L 5W-30

| Version 1.6               | Revision Date 14.10.2022   | Print Date 15.10.2022           |
|---------------------------|--|---------------------------------|
| Acute toxicity            |  |                                 |
| Product:                  |  |                                 |
| Acute oral toxicity       | : LD50 rat: > 5,000 mg/kg<br>Remarks: Low toxicity:<br>Based on available data, the class    | ification criteria are not met. |
| Acute inhalation toxicity | : Remarks: Based on available data are not met.  | i, the classification criteria  |
| Acute dermal toxicity     | : LD50 Rabbit: > 5,000 mg/kg<br>Remarks: Low toxicity:<br>Based on available data, the class | ification criteria are not met. |

#### Skin corrosion/irritation

#### Product:

Remarks: Slightly irritating to skin., Prolonged or repeated skin contact without proper cleaning can clog the pores of the skin resulting in disorders such as oil acne/folliculitis., Based on available data, the classification criteria are not met.

#### Serious eye damage/eye irritation

#### Product:

Remarks: Slightly irritating to the eye., Based on available data, the classification criteria are not met.

#### Respiratory or skin sensitisation

#### Product:

Remarks: Not a skin sensitiser. Based on available data, the classification criteria are not met.

#### **Chronic toxicity**

#### Germ cell mutagenicity

#### Product:

: Remarks: Non mutagenic, Based on available data, the classification criteria are not met.

#### Carcinogenicity

#### Product:

Remarks: Not a carcinogen., Based on available data, the classification criteria are not met.

| Material                   | GHS/CLP Carcinogenicity Classification |
|----------------------------|--|
| Highly refined mineral oil | No carcinogenicity classification.     |

## Helix Ultra Professional AR-L 5W-30

Version 1.6Revision Date 14.10.2022Print Date 15.10.2022

#### **Reproductive toxicity**

Product:

Remarks: Not a developmental toxicant., Does not impair fertility., Based on available data, the classification criteria are not met.

#### STOT - single exposure

#### Product:

Remarks: Based on available data, the classification criteria are not met.

÷

#### STOT - repeated exposure

#### Product:

Remarks: Based on available data, the classification criteria are not met.

#### Aspiration toxicity

#### Product:

Not an aspiration hazard.

#### **Further information**

#### Product:

Remarks: Used oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they may present risks to health and the environment on disposal., ALL used oil should be handled with caution and skin contact avoided as far as possible.

Remarks: Continuous contact with used engine oils has caused skin cancer in animal tests.

Remarks: Slightly irritating to respiratory system.

#### **SECTION 12. ECOLOGICAL INFORMATION**

| Basis for assessment | <ul> <li>Ecotoxicological data have not been determined specifically<br/>for this product.</li> <li>Information given is based on a knowledge of the components<br/>and the ecotoxicology of similar products.</li> <li>Unless indicated otherwise, the data presented is<br/>representative of the product as a whole, rather than for<br/>individual component(s).</li> </ul> |

### SECTION 13. DISPOSAL CONSIDERATIONS

#### **Disposal methods**

| Waste from residues :    | <ul> <li>Recover or recycle if possible.</li> <li>It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classification and disposal methods in compliance with applicable regulations.</li> <li>Waste product should not be allowed to contaminate soil or ground water, or be disposed of into the environment.</li> <li>Do not dispose into the environment, in drains or in water courses</li> <li>Do not dispose of tank water bottoms by allowing them to drain into the ground. This will result in soil and groundwater contamination.</li> <li>Waste arising from a spillage or tank cleaning should be disposed of in accordance with prevailing regulations, preferably to a recognised collector or contractor. The competence of the collector or contractor should be established beforehand.</li> </ul> |  |
|--------------------------|---|--|
|                          | MARPOL - see International Convention for the Prevention of Pollution from Ships (MARPOL 73/78) which provides technical aspects at controlling pollutions from ships.  |  |
| Contaminated packaging : | Dispose in accordance with prevailing regulations, preferably<br>to a recognized collector or contractor. The competence of<br>the collector or contractor should be established beforehand.<br>Disposal should be in accordance with applicable regional,<br>national, and local laws and regulations.   |  |

|                   |                          |                       |
| Local legislation |                          |                       |

Remarks

: Disposal should be in accordance with applicable regional, national, and local laws and regulations.

#### **SECTION 14. TRANSPORT INFORMATION**

#### **National Regulations**

ADG

Not regulated as a dangerous good

#### International Regulations

IATA-DGR

Not regulated as a dangerous good

IMDG-Code

Not regulated as a dangerous good

#### Maritime transport in bulk according to IMO instruments

MARPOL Annex 1 rules apply for bulk shipments by sea.

#### Special precautions for user

Remarks

: Special Precautions: Refer to Section 7, Handling & Storage, for special precautions which a user needs to be aware of or needs to comply with in connection with transport.

#### **SECTION 15. REGULATORY INFORMATION**

## Safety, health and environmental regulations/legislation specific for the substance or mixture

Standard for the Uniform : No poison schedule number allocated Scheduling of Medicines and Poisons

The regulatory information is not intended to be comprehensive. Other regulations may apply to this material.

Product classified as per Work Health Safety Regulations – Implementation of the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) 2012 and SDS prepared as per national model code of practice for preparation of safety data sheet for Hazardous chemicals 2020 based on Globally Harmonized Classification version 7.

National Model Code of Practice for the Labelling of Workplace Hazardous Chemicals (2011). Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG code). Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).
